

CONTENTS

Food Technology

Małgorzata Jasińska, Katarzyna Harabin, Izabela Dmytrów

- Effect of packaging and season of milk production on selected quality characteristics of organic acid curd cheese during storage 231

Agnieszka Makowska, Dorota Cais-Sokolińska, Agata Lasik

- Effect of technological factors on water activity of extruded corn product with an addition of whey proteins 243

Ogbonnaya Chinedum Eleazu, Kate Chinedum Eleazu, Segun Kolawole

- Use of indigenous technology for the production of high quality cassava flour with similar food qualities as wheat flour 249

Yuh Shan Wong, Chiaw Mei Sia, Hock Eng Khoo, Yee Kwang Ang, Sui Kiat Chang, Hip Seng Yim

- Influence of extraction conditions on antioxidant properties of passion fruit (*Passiflora edulis*) peel ... 257

Mahmoud El-Hofi, Azza Ismail, Maher Nour, Osama Ibrahim

- Isolation, purification and characterisation of transglutaminase from rosemary (*Rosmarinus officinalis* L.) leaves 267

Barbara Stachowiak

- Astaxanthin synthesis by *Xanthophyllomyces dendrorhous* DSM 5626 and its astaxanthin overproducing mutants on xylose media under different illumination 279

Human Nutrition

Lidia Lipińska, Elżbieta Klewicka, Michał Sójka

- Structure, occurrence and biological activity of ellagitannins: a general review 289

Julita Reguła, Angelika Śmidowicz

- Share of dietary supplements in nutrition of coeliac disease patients 301

Folasade Maria Makinde, Rahman Akinoso

- Comparison between the nutritional quality of flour obtained from raw, roasted and fermented sesame (*Sesamum indicum* L.) seed grown in Nigeria 309

Anna M. Prusak, Małgorzata Schlegel-Zawadzka, Annabelle Boulay, Gene Rowe

- Characteristics of the peanut chain in Europe – implications for peanut allergy 321
