

CONTENTS

Food Technology

Joanna Stadnik, Paulina Kęska

Meat and fermented meat products as a source of bioactive peptides 181

Adam Kostecki, Agnieszka Bilska, Bożena Danyluk

Chosen quality parameters of pork sausage produced without curing mixture 191

Dorota Weiss, Anna Kaczmarek, Jerzy Stangierski

Applicability of bacterial growth models in spreadable processed cheese 199

He Chen, Yajuan Song, Nina Liu, Hongchang Wan, Guowei Shu, Na Liao

Effect of complexation conditions on microcapsulation of *Lactobacillus acidophilus* in xanthan-chitosan polyelectrolyte complex gels 207

Renata G. Fonseca, Francisco M. Barros, Miriam A. Apel, Gilsane L. von Poser, João L. Andriolli, Pedro C. Campos Filho, Dhierlate F. Sousa, Ivon P. Lobo, Aline O. Conceição

Physicochemical and antimicrobial properties of copaiba oil: implications on product quality control 215

He Chen, Jinfeng Niu, Tao Qin, Qi Ma, Lei Wang, Guowei Shu

Optimization of the medium for *Lactobacillus acidophilus* by Plackett-Burman and steepest ascent experiment 227

A. Ahmed Fouad, F. M. Ali Rehab

Effect of germination time on proximate analysis, bioactive compounds and antioxidant activity of lentil (*Lens culinaris* Medik.) sprouts 233

Corinna Markowicz, Marcin T. Schmidt

Lactobacillus strains belonging to *Casei* group display various adherence to enterocytes and mucus . 247

Human Nutrition

Angelika Śmidowicz, Julita Reguła

Dietary gender differences in terms of the risk of atherogenesis in Poland 257

Andrey A. Skalny, Alexey A. Tinkov, Yulia S. Medvedeva, Irina B. Alchinova, Mikhail Y. Karganov, Anatoly V. Skalny, Alexandr A. Nikonorov

Effect of short-term zinc supplementation on zinc and selenium tissue distribution and serum antioxidant enzymes 269
