

CONTENTS

Food Technology

Alexander G. Shleikin, Yaroslav V. Medvedev

Role of peroxidation and heme catalysis in coloration of raw meat 123

Hamid Reza Gheisari, Khadijeh H. Abhari

Drying method effects on the antioxidant activity of quince (*Cydonia oblonga* Miller) tea 129

Katarzyna Waszkowiak, Krystyna Szymandera-Buszka, Marzanna Heś

Effect of ethanolic flax (*Linum usitatissimum* L.) extracts on lipid oxidation and changes in nutritive value of frozen-stored meat products 135

Paula Kuźma, Beata Drużyńska, Mieczysław Obiedziński

Optimization of extraction conditions of some polyphenolic compounds from parsley leaves (*Petroselinum crispum*) 145

Wei Liu, Chun-Li Zhou, Jing Zhao, Dong Chen, Quan-Hong Li

Optimized microwave-assisted extraction of 6-gingerol from *Zingiber officinale* Roscoe and evaluation of antioxidant activity *in vitro* 155

Lee Suan Chua, Nur Ardawati Adnan

Biochemical and nutritional components of selected honey samples 169

Jerzy Dziuba, Iwona Szerszunowicz, Dorota Nałęcz, Marta Dziuba

Proteomic analysis of albumin and globulin fractions of pea (*Pisum sativum* L.) seeds 181

Human Nutrition

Semih Ötles, Selin Ozgoz

Health effects of dietary fiber 191

Katarzyna Przybyłowicz, Mariusz Przybyłowicz, Marek Grzybiak, Katarzyna Janiszewska

Effects of physical activity during pregnancy and gestational weight gain on the nutritional status of newborns in Warmińsko-Mazurskie voivodeship 203

Anna Winiarska-Mieczan

Assessment of the risk of exposure to cadmium and lead as a result of the consumption of low-fat dairy products by expectant and lactating women 213
