Food Technology

**Ravi Shankara Birur Eshwarappa, Y. L. Ramachandra, Sundara Rajan Subaramaihha,
Sujan Ganapathy Pasura Subbaiah, Richard Surendranath Austin,
Bhadrapura Lakkappa Dhananjaya**

Antioxidant activities of leaf galls extracts of *Terminalia chebula* (Gaertn.) Retz. (Combretaceae) . . . 97

Guowei Shu, Hui Yang, He Chen, Qihong Zhang, Yue Tian

Effect of incubation time, inoculum size, temperature, pasteurization time, goat milk powder and whey powder on ACE inhibitory activity in fermented milk by *L. plantarum* LP69 107

He Chen, Shiwei Chen, Hongli Chen, Yanyan Wu, Guowei Shu

Effects of sugar alcohol and proteins on the survival of *Lactobacillus bulgaricus* LB6 during freeze drying 117

Anna Starzyńska-Janiszewska, Bożena Stodolak, Agnieszka Wikiera

Proteolysis in tempeh-type products obtained with *Rhizopus* and *Aspergillus* strains from grass pea (*Lathyrus sativus*) seeds 125

Ganggang Cao, Zhengbing Guan, Feixiang Liu, Xiangru Liao, Yujie Cai

Arachidonic acid production by *Mortierella alpina* using raw crop materials 133

Human Nutrition

Katarzyna Marcinek, Zbigniew Krejpcio

Stevia rebaudiana Bertoni – chemical composition and functional properties 145

**Bożena Waszkiewicz-Robak, Arkadiusz Szterk, Mateusz Rogalski, Michał Rambuszek,
Monika Kruk, Ewelina Rokowska**

Nutritional value of raw pork depending on the fat type contents in pigs feed 153

Mariola Friedrich, Grażyna Podlaszewska, Kamila Pokorska-Niewiada

Effects of complementary and excess diet supplementation with selected minerals on their metabolism and distribution in the body: a model study 165
