

CONTENTS

Minghuan Du, Ling Zhao, Jiaqi Liu, Yiting Zheng, Hongli Zhou, Xin Sui Development and stability optimisation of composite cereal-based meal replacement	243
Nataliia Volodymyrivna Bozhko, Vasyl Ivanovich Tischenko, Vasyl Mykolayovich Pasichnyi, Andrii Ivanovich Marinin, Yuliia Anatoliivna Matsuk Comparative analysis of the chemical composition, functional-technological, rheological, and antioxidant properties of wild boar meat (<i>Sus scrofa</i>) with DFD properties and industrial pork	257
Omar Ait El Alia, Yassine Zine-Eddine, Salah Chaji, Said Souhassou, Fouzia Kzaiber, Abdelkhalek Oussama, Khalid Boutoial Physico-chemical and sensory characterization of camel milk yogurt enriched with persimmon (<i>Diospyros kaki</i>) fruit	267
Małgorzata Jamka, Edyta Mądry, Patrycja Krzyżanowska-Jankowska, Joanna Bajerska, Paweł Bogdański, Aleksandra Lisowska, Jarosław Walkowiak Serum lactoferrin levels in abdominal obese postmenopausal women with normal bone status and osteopenia	279
Lihao Xu, Guowei Shu, Chunji Dai, Jie Kang, Hongmin Jia, Xiaoxue Zhou, Jianghua Chen Process optimization of a novel water kefir drink with high antioxidant activity from Chinese jujube (<i>Ziziphus Jujuba</i> Mill.) Through response surface methodology	293
Bukola M. Adenuga, Magdalena Montowska The Nigerian meat industry: An overview of products' market, fraud situations, and potential ways out	305
Giang T. N. Nguyen, Khai V. Tran, Tuyen T. X. Vo, Tan D. Nguyen The interactions between various drying temperatures and applied drying models of asparagus roots (<i>Asparagus officinalis</i> L.)	331
Le Thi Kim Loan, Ngo Van Tai, Nguyen Minh Thuy Microwave-assisted extraction of "Cám" purple rice bran polyphenol: a kinetic study	341
Tran Hong Quan, Giap Pham Ngoc Tram, Tran Tieu Yen, Nguyen Phung Tien, Pensiri Kaewthong, Supatra Karnjanapratum The effect of golden oyster mushroom (<i>Pleurotus citrinopileatus</i>) powder on the physiochemical, antioxidant, and sensory properties of noodles	351
Carlos Banchón Chitosan flakes for papain immobilization: improving the stability and reusability of the enzyme	361
