Mathematical modelling of thin layer foam mat drying kinetics of <i>Artemia</i> (<i>Artemia franciscana</i>) . . .	405
Selene Pascual Bustamante, María A. Trejo-Márquez, Cesar Leobardo Aguirre-Mancilla, Juan G. Ramírez-Pimentel, María G. Vargas Martínez, Juan C. Raya-Pérez	
Optimization of a soaking and ultrasound method for the reduction of non-nutritional compounds in chickpeas (<i>Cicer arietinum</i> L.)	415
M Ubaid, Charanjiv Singh Saini	
Protein concentrate extracted from grape seeds: Impact of different pH levels on the amino acid composition, structural, thermal, morphological, and functional properties	423
Volodymyr I. Ladyka, Olexander L. Tymchenko, Nataliia V. Bolhova, Vasyl I. Tischenko, Nataliia V. Bozhko	
Evaluation of culinary and functional-technological properties of the meat of steers of different genotypes	439
Minghuan Du, Jiaqi Liu, Yiting Zheng, Lili Feng, Jing Zhang, Yahong Wang, Hongli Zhou, Ke Sun	
Evaluation of bioavailability and potential functional activity of composite cereal meal replacement .	451
Hanane Latifi, Hafida Zahir, Salah Laaraj, Hassan Latrache, Mostafa El Louali, Kaoutar Elfazazi	
Evaluation of the quality and oxidative stability of virgin olive oil from <i>Moroccan Picholine</i> olives fortified with <i>Rosmarinus officinalis</i> L. essential oil during storage	467
Pavel Diviš, Jaromír Pořízka, Michal Gross, Lukáš Fojt, Eva Vítová	
Authenticity of Wines Produced from ‘Frankovka’ Grape Variety Originating in the Modré Hory region (Czech Republic)	477
Nguyen T. N. Giang, Tran V. Khai	
Modeling the degradation of bioactive compounds during air convection drying of asparagus roots (<i>Asparagus officinalis</i> L.)	491
Georgi Popski, Boryana Stefanova, Petko Minkov	
Evaluation of Serbian Plum Cultivars under the Agro-Ecological Conditions of the Troyan Mountain Region	503
Tran Minh Phuc, Tran Hong Quan, Do Thi Tuyet Nhung, Duong Thi Phuong Lien, Ha Thanh Toan	
Effects of incubation conditions on the nutrient composition and antioxidative activity of fermented tofu supplemented with purple sweet potato by <i>Actinomucor elegans</i>	513
Weiya Shi, Liang Chen	
Multi-scale ResNet Integrated with Attention Mechanism for Enhanced Wheat Freshness Diagnosis Based on Biophotonics	525
