

Erratum to *Annona squamosa* and *Catunaregam nilotica* Seeds, the Effect of the Extraction Method on the Oil Composition( <http://link.springer.com/article/10.1007/s11746-010-1548-3>)

After intensive botanical and taxonomical studies performed by their colleagues in the Department of Botany at Sudan University of Science and Technology, the authors have learned that the correct Latin name of the studied seed sample locally known as kerkir is *Vangueria madgascariensis* , not *Catunaregam nilotica*.
