

CONTENTS

Food Technology

Olga S. Arvaniti, Panagiotis Mitsonis, Ioannis Siorokos, Endrysa Dermishaj, Yiannis Samaras

The physicochemical properties and antioxidant capacities of commercial and homemade Greek vinegars 225

Stephania Rosales Delgado, Andres F. Alzate Arbelaez, Benjamín Rojano

Antioxidant capacity, bioactive compounds in coffee pulp and implementation in the production of infusions 235

Sylwia Sady, Leszek Matuszak, Alfred Blaszczyk

Optimisation of ultrasonic-assisted extraction of bioactive compounds from chokeberry pomace using response surface methodology 249

Jewel Hossen, Abbas Ali

Effect of microwave radiation on the antioxidant activity of black cumin seed 257

Fangfang Cheng, He Chen, Ni Lei, Meng Zhang, Hongchang Wan, Guowei Shu

Effect of prebiotics, inorganic salts and amino acids for cell envelope proteinase production from *Lactobacillus plantarum* LP69 269

Hoda H. M. Fadel, Khaled F. Mahmoud, Rasha Saad, Shereen N. Lotfy, Fatma Sh Abd El-Aleem, Mohamad Y. S. Ahmed

Nanotechnology for enhancing the production of meat-like flavour from enzymatic hydrolyzed soybean protein isolate 279

Elżbieta Kondratowicz-Pietruszka, Lidia Ostasz, Kinga Tataruch

The dynamics of oxidative changes in selected fats during the frying of French fries 293

Human Nutrition

Jerzy Stangierski, Agata Kawecka

An evaluation of the mechanical and sensory characteristics of selected foodstuffs for senior citizens 305

Fathy H. Elsaid, Ali A. Khalil, Eman M. Ibrahim, Abdelmegeed Mansour, Abdelaziz M. Hussein

Effects of exercise and stevia on renal ischemia/reperfusion injury in rats 317

Fabrice N. B. Wandji, Aduni U. Achidi, Moses N. Ngemenya, Kennedy D. Nyongbela, Bernard Tiencheu

In vitro antifungal, antibacterial activities and nutritional value of nine Cameroonian edible vegetables and spices 333
